

Magnetite
...your window solution

The Original, Interior, Magnetic Storm Window!

How It Works...

A lightweight and flexible panel seals magnetically and fits over the inside of your existing window.

**SEALS
MAGNETICALLY!**

Easy, Quick Installation
Works WITH Existing Windows
Blocks Harmful UV Rays

Perfect for Historic Windows
Any Size, Any Shape

The magnetized gasket on your refrigerator door seals tight to keep the cold air inside. **Magnetite®** windows also seal with a magnetized gasket, keeping cold air out in the winter and hot air out in the summer.

The windows in commercial aircrafts are made of clear acrylic panels to reduce noise and prevent breakage. **Magnetite®** windows are made of this same 100% acrylic.

The dead air space in a Thermos® bottle separates the temperature of the liquid inside from the surrounding temperature outside. **Magnetite®** windows form a dead air space too, making the home or office comfortable all year long.

What Can Magnetite® Do For You?

Like many folks, you may not have heard of a **MAGNETITE WINDOW** until now. **Magnetite®** uses the same principle as your refrigerator door. The patented magnetic edging holds a clear sheet of optical grade acrylic (like in an airplane) against a frame installed on the jamb of your window. They are **practically invisible**, yet keep out the wind and weather better than anything else on the market.

- ➡ **Magnetite®** windows make your home more comfortable by **eliminating drafts**, reducing the outside noise (up to 90% at some frequencies) and eliminating the **hot or cold spots**.
- ➡ Because they are mounted on the inside of the home, they **reduce** the annoying **icing and fogging** on your window glass. They are easy to operate and the only maintenance you'll ever need is cleaning.
- ➡ The patented magnetic seal **stops dust and pollen** from coming into your home, allowing you and your family to breathe easier.
- ➡ The space age materials are safe, much safer than glass and **will not shatter, warp or fade**, which means you get a lifetime of use from this product.
- ➡ The acrylic glazing has special filters that **stop harmful Ultraviolet Rays** from damaging your draperies, carpeting and furniture.
- ➡ The magnetic design allows for **fast removal** in case of fire or emergency.
- ➡ Best of all, **Magnetite®** windows can be made to **fit ANY window**. Round tops, ovals, trapezoids are no problem for **Magnetite®**. Even huge windows can be covered with one (almost invisible) panel.

There's not a window out there that can't be improved with **Magnetite®**!

Installation is EASY! Our trained professionals make installation **QUICK** and **EASY!** Very little time is required to get you started saving money with your new window solution!

STOP LOSING MONEY OUT YOUR WINDOWS!
